

# GROWTH GENERALI

Investment plans Switzerland, Plan No. 42  
 Monthly Report, 01.03.2024

## Investment Goal

Investments are concentrated in the EU and Switzerland. The portfolio incurs a very low currency risk since it is invested almost exclusively in CHF. The high proportion of bonds results in a high degree of stability. Equities are also heavily weighted, which provides a good return potential overall with limited risk. This portfolio is especially suitable for longer-term investment horizons.

This product flyer and the figures and explanations contained therein are for general information purposes only and do not contain an individual recommendation nor personal investment advice. To establish your specific investment requirements and preferred levels of risk, we advise you to consult your advisor.

The performance is calculated on the basis on a unit-linked insurance financed through a single premium payment. Regular premiums result in other performance figures because of the different timing of the investment. Historic performance data are furthermore no guarantee of future returns. The future performance of investments cannot be deduced from previous market development, i.e. the value of an investment may fall as well as rise. The prices used to calculate performance correspond to the inventory values published by the fund management companies at the beginning of the month, plus or less any commissions.

Generali Insurances of Persons Ltd. is unable to guarantee (explicitly nor implicitly) that the published information and opinions are accurate, complete and up to date. Only the sales prospectuses for the individual funds and the General Policy Conditions are binding.
