

# GROWTH TOP

Investment plans Switzerland, Plan No. 254  
 Monthly Report, 01.03.2024

## Investment Goal

The investment is made in an allocation of 40% equities and 60% bonds. The objective of equity weighting investing at least two-thirds in participation rights of companies with headquarters in Switzerland is capital growth whereas the investment objective of the bond component is to preserve capital and to increase slightly its value by investing in high quality bonds.

To establish your specific investment requirements and preferred levels of risk, we advise you to consult your advisor.

The performance is calculated on the basis on a unit-linked insurance financed through a single premium payment. Regular premiums result in other performance figures because of the different timing of the investment. Historic performance data are furthermore no guarantee of future returns. The future performance of investments cannot be deduced from previous market development, i.e. the value of an investment may fall as well as rise. The prices used to calculate performance correspond to the inventory values published by the fund management companies at the beginning of the month, plus or less any commissions.

Generali Insurances of Persons Ltd. is unable to guarantee (explicitly nor implicitly) that the published information and opinions are accurate, complete and up to date. Only the sales prospectuses for the individual funds and the General Policy Conditions are binding.
